HOW STRESSED ARE THESE PEOPLE? (DAILY ROUTINES)

a. Read the article. How stressed is Louisa? Why? (Preberi zgodbo. Kako močno je Louisa v stresu? Zakaj?)

Professor Parker, a stress expert from the University of London, looks at two people's typical day and tries to help…

Louisa's story

Louisa works as a **guide** in the National Gallery in London and lives with her son George, aged 9.

6.30 I get up and I make George's sandwiches. **Then** I do some housework. Then I wake up George and make his breakfast. I'm **always** in a hurry and I don't have time for breakfast **at home**.

8.00 We **cycle** to school because the bus is expensive. Then I cycle six miles to work.

9.00 I have a sandwich for breakfast in the **canteen** and then I start work. My first tour is usually at 9.30. I like my job but I don't earn much money and I stand all day.

5.00 I finish work and I go to **pick up** George at 5.30. We go **shopping**.

6.30 I cook dinner and help George with his homework. **After** dinner I do more housework or answer e-mails **until** 9.00. I don't go out in the evening because a babysitter is very expensive.

9.00 George goes to bed and I read him **a story**. Then I go to bed – I'm really tired!

Professor Parker's advice:
Have breakfast with your son. Do all the housework in the evening. Don't cycle, get the bus. It's important to see other people. Invite a friend for a drink once a week.

b. What is the meaning of words? (Kaj pomenijo odebeljene besede?)

c. Read what Simon is saying to Professor Parker. (Preberi Simonov pogovor.)

Professor: Where do you work, Simon?
Simon: I work for a computer company in London – but I live in Brighton.
Professor: Are you married?
Simon: Yes, I have three daughters.
Professor: So you travel from Brighton to London every day?
Simon: Yes. I travel 55 miles to work!
Professor: Tell me about a typical day.
Simon: Well, I get up at six o'clock and I have a shower and get dressed. I don't see my daughters – they're in bed.
Professor: Do you have breakfast?
Simon: No, I don't have time. I have to get the train to London at half past seven.
Professor: What time do you get to London?
Simon: The train usually arrives at half past eight. Then I walk from the station to work. That's about half an hour.
Professor: What time do you start work?
Simon: At 9.00. I start work and I have a coffee. I drink about six cups of coffee a day.
Professor: Do you go out for lunch?
Simon: No, I'm very busy. I have a sandwich in the office.

Professor: Do you like your job?
Simon: It's OK, but I'm very worried about my contract. It finishes in six months.
Professor: What time do you finish work?
Simon: I finish work at half past five. Then I walk to the station again to get the train.
Professor: Do you have dinner with your family?
Simon: No, I don't. My family have dinner at six – but I'm on the train then. I don't get home until quarter to eight.
Professor: What do you do after dinner?
Simon: After dinner I sit and watch TV. I'm very tired. I usually go to sleep in front of the TV.
Professor: What time do you go to bed?
Simon: About 11.00.

Professor Parker's advice:
Have breakfast in the morning, Simon, it's very important. But don't drink six cups of coffee – that's too much. Don't have lunch in the office, go out to a sandwich bar or restaurant. And finally, if possible find a new job in Brighton, not in London.

d. Answer the questions. (Odgovori.)

1. How many children does Simon have? _____
2. What time does he get up? _____
3. Why doesn't he have breakfast? _____
4. What time does he start work? _____
5. How many cups of coffee does he drink? _____
6. What does he have for lunch? _____
7. What time does he finish work? _____
8. Why doesn't he have dinner with his family? _____
9. What time does he get home? _____
10. What does he do after dinner? _____

2. WILL FUTURE (ENOSTAVNI PRIHODNJIK)

WHAT WILL LIFE BE LIKE IN THE FUTURE?

What will life be like in one hundred years from now? **I don't know,** of course. But this is what I think will happen.

I think computers will be much more important in our lives. They will control everything in our house. I believe scientists will find a way to make computers talk and think, just like people. Also, there won't be any more wars. Governments will find ways to stop wars and we will live in peace.

I think there won't be any schools. I think children will learn at home, using their computers. They will do everything online. There will be no real books any more.

That's what I think about life in the future. I think it'll be very different, but very exciting!

Richard
